Observations... From Around Town

(BY JAY WHOZIT)

Last Friday it seemed that we were headed for some national headlines, which probably would have read as follows: "OIL DISCOVERED IN BAY ST. LOUIS, MISSISSIPPI—REFINED BLACK GOLD FLOWING THROUGH CITY WATER MAINS"—"Alas how disappointing it was to find that some unthinking person had poured lubricating oil in the well trying to prime the old baby, or some valve was open while they were trying to repair the worn out gas pump and that oil was allowed to flow into the well... will someone please tell us whose responsibility it is to keep up the pumping system at the waterworks plant—water pressure is something that we once had—if we have to do without the pressure we should at least have water that is not filled with oil and substance and that is fit for human consumption... the voters of Mississippi will vote for or against two amendments to the Constitution on Tuesday—the first of these amendments is to amend the constitution as to the qualifications of voters, and the amendment that is offered is that the person must be of good moral character—this question will be passed on, if the amendment is adopted, by the County Election Commissioners, who will make the decision if a voter is of good moral character—this amendment is of the Gestapo type and should be defeated—we are not living in Russia, nor do we want to bring about the type of government that existed in Germany in the days of Hitler—Mississippi is full of State Rights movements—well if there is any sincerity in our words this amendment should not have been adopted by the Legislature—A Governor, Attorney General and Secretary of State, can combine to name election commissioners who would do their bidding and could control who could or could not vote—do you want that to happen—it is possible—let's not take a chance—may get some boys who may take a notion to do it—VOTE AGAINST THIS AMENDMENT... the second amendment is to provide for the convening of the Legislature each year... if you will take time to check and see the number of laws that are passed every two years it will amaze you... we have more laws than we can enforce and follow at the present time... it would be better if the Legislature would have a session to do nothing more than to repeal antiquated and useless statutes which are still on the law books... this is another useless amendment that should be voted down... Monday, November 1st is the Feast of All Saints the day on which we, in the southernmost part of our country pay tribute to the memory of our departed brethren, by placing flowers upon their graves or tombs and by visiting at their final resting places... this is a custom which is observed only here in the deep south and has come to be traditional with our people... after a two-week lay-off the Stanislaus Rockchaws get back into action this Friday night, when they meet the strong St. Aloysius eleven, of New Orleans, at Stanislaus Stadium, in what should be a ding-dong battle from start to finish... Bay High School will celebrate their homecoming on next Friday night, November 5th, when they meet Demonstration High, of Hattiesburg... St. Joseph Academy published its first issue of the "Sea Sprite," its new student publication, this week... don't forget that Tuesday, November 2nd is election day, when we as free American citizens, get the chance to exercise the greatest privilege accorded any nation in the world today—the privilege to vote freely, without the fear of intimidation from any one person or group of persons for the man of our choice to be our president and leader for the next four years... nearly all of our radio shops in town either have or will have soon for display and later sale, the new television sets, and we understand that by December 15th, one of the major broadcasting stations in New Orleans will be broadcasting television programs... whether you've thought of it or not, it is a fact that there are only eight more days until Christmas, and that isn't very long... the daily newspapers are already featuring many advertisements urging early Christmas shopping... according to a news release Wednesday of this week, three New Orleans men were arrested in Gulfport for distributing leaflets described as containing "inflammatory literature." They were later released after being warned by police that further distribution of their literature "might result in trouble." They were identified as workers for the Progressive Party by Mr. Lewis Henderson, of Bay St. Louis. State Chairman of the party, Mrs. Julius Brent, of McComb, has been selected by the State's Rights Party as a write-in candidate for Presidential elector in the State's Rights column to replace the late Mr. Brent, who died last Saturday.

General Election To Be Held Tuesday November 2nd

Voters Will Cast Ballots For Nominees of August Primaries—Presidential Electors—And on Two Amendments To The Constitution—Julius Brent One of States Rights Democratic Electors Died—Executive Committee Recommends Name of Mrs. Julius Brent Be Written In As Substitute Elector

Tuesday, November 2nd, 1948 is general election day, at which time the voters will make their way to the polls to cast their ballots for the nominees at the August Primaries and for their choice for the Presidency of the United States.

For the first time in our recollection the voter will be able to tell what parties the various presidential electors represent. The last legislature authorized the placing at the top of the names of the various electors the names and the parties and the presidential and vice presidential candidates. Heretofore only the names of the electors were placed on the ticket and it was a question of guessing what parties the various electors represented.

In addition to the presidential electors and the nominees for United States Senator, Congressman and Judge of the Supreme Court, the voters will be called upon to vote on two constitutional amendments—One amends the constitution as to the qualifications on voters and the other amendment, provides for annual sessions of the legislature.

Since the printing of the tickets for the general election Mr. Julius Brent of McComb Miss. one of the electors of the States Rights Democrats has died, and it will be necessary that the name of an elector be written in, in place of Mr. Brent.

The State Democratic Executive Committee met in special session and nominated Mrs. Julius Brent, widow of the deceased elector and recommended her to the Democratic voters of Mississippi as a substitute elector in place of her husband on the ballot of November 2nd. This action was taken in order to assure the States Rights Democratic Party an opportunity to name nine electors pledged to the party's presidential and vice presidential candidates, Governor J. Strom Thurmond and Governor Fielding L. Wright. The attorney general has ruled that it will be necessary to write the name of Mrs. Julius Brent in longhand in the space on the official ballot just under the list of printed Mississippi Democratic Electors and to place an X in the space designated for that purpose. The Mississippi Democratic electors appear at the top of the official ballot and are designated as pledged to Thurmond and Wright.

The St. Stanislaus Rockchaws meet the highly touted St. Aloysius team of New Orleans here Friday night October 29, in what promises to be one of the outstanding games seen here this season.

Animated Rosary Featured By Local Sodalities

Last Saturday night the combined Sodalities of St. Josephs Academy and of St. Stanislaus held an animated Rosary on the campus of St. Stanislaus.

The girls and boys encircled the campus, the girls as "Hail Marys," while the boys were the Peters. Sodalists from Stanislaus formed the cross and Aves. All held lighted candles in their hands and as their turn came for the recitation of the Hail Mary or the Our Father, the candle was held aloft.

Joe David, Prefect of St. Stanislaus sodality gave out over the Public address system the meditation for each mystery and repeated the Our Father. The Prefect of the St. Josephs Sodality, Miss Patsy Gex, gave out the first part of the Hail Mary for the Sodalists.

Benediction of the Blessed Sacrament in Our Lady of the Gulf church followed the Animated Rosary. Rev. Michael Fox was the celebrant.

The sodalists held a dance at the St. Joseph Gym following the Church services. Brother Berchmans, S. C. and Sister Louise Raphael directed the efforts of the sodalists in this activity.

Little Theatre Will Present "George Washington Slept Here" On November 3rd-4th-5th

The Little Theatre will present "George Washington Slept Here" on the nights of November 3, 4, and 5. This is a rollicking comedy with rural Pennsylvania as a setting. Denny Fonkel and Ethel Floyd as Mr. and Mrs. Fuller, enjoy the country life with little of the expected glamor and all of the unexpected trials and tribulations. The "help problem" is given some new angles by Eddie Melcher as "Hester," Mary Hatcher as "Katie" and Al Weinferter as "Mr. Kimber." Jimmy Smith as "Madge," Shelby Tucker as "Raymond," and J. J. Kelleher as "Uncle Stanley," prove that all has not been said about family problems as yet. And Steve (Bill Smith), Mrs. Douglas (Marquita Freeman), Clayton Evans (Dick Shadoin), Rena Leslie (Laura Gray), Liegett Frazer (Lee Pearson), Tommy Hughs (Andy Gray), Sue Barrington (Mary Frances Scafield), Miss Wilcox (Mittie Manieri) and Mr. Prescott (Bill Freeman), a group of well meaning friends, do not help the state of general confusion.

The set for this play was designed by Reece Spangenberg and constructed by the cast and a few friends. Because the set is an integrate part of the action of the play, Mrs. John Bell, the director, has had closed rehearsals. While members of the cast have been seen with signs of spattered paint and broken nails, and sounds of laughter can be heard around the theatre, no one seems to know just what to expect on opening night. However, with a good play and an enthusiastic cast the Little Theatre will do it again when they present "George Washington Slept Here."

—Mr. and Mrs. R. S. Blaize, Jr., and little son Ralph S. Blaize, III, have returned to their home in New Orleans after a visit to Mr. Blaize's parents. They came for the silver wedding anniversary of Mr. Blaize's brother-in-law and sister Mr. and Mrs. A. G. Favre.

—Mr. and Mrs. Ambrose Barbeau of Chicago visited Mr. Barbeau's sister Mrs. Joseph Kern and son Joe for a week, returning to their home last week. Mrs. Kern has with her now her cousin Mrs. Roy Wagner and son. James of Chicago. The visitors are charmed with the coast.

—Perre Quintini, son of Mr. and Mrs. Frank Quintini, who was with the United Trust Company, Kansas City, Kansas, has enlisted in the Army Air Force and is attached to the 371st. Training Squadron at the Lakeland Air Force Base, San Antonio, Texas. Mr. and Mrs. Quintini's son Corporal Claud Quintini is in the United States Army stationed at Fort Ord, California, and their daughter, First Lieutenant Audrae Quintini, of the Nurse Corps is stationed at Capitol Field, Ogden, Utah.

—The World Community Day of Prayer will be observed on Friday, November 5th at the Main Street Methodist Church at 3 p. m. The program will be given by members of the Episcopal, Methodist and Baptist churches.

—The monthly meeting of St. Joseph Academy Parents Club will be held on Tuesday, November 2nd, in the school library at 3:15 p. m. Anyone desiring to become a member is cordially invited and all members are requested to attend. The co-hostesses for the month are Mesdames O. Delph and W. A. Prewitt.

—Miss Alicia Rollins, senior at the University of Mississippi majoring in Home Economics has been elected vice president of her class. Miss Rollins has also been named House President of the Kappa Delta Sorority House at "Ole Miss."

She is the daughter of Mr. and Mrs. J. R. Rollins of this city.

—Mrs. Thomas Gee, the former Miss Ethel Bilbo, left last week for Turner, Oregon, where she will visit her husband's parents. She will later join her husband who is presently in an Army Hospital in Oregon, suffering from burns on his hands. Corporal Gee was on an overseas assignment with the Army Air Corps.

—On Saturday evening Miss Jannelle Van Trier entertained in honor of her guest from New Orleans, Miss Marlane Norris. The guests included Misses Mary Lou Scianna, Frances Herring, Joy Ann St. Angelo, Edith Dantagnan, Joyce Ward, and Messrs. Albert Piazza, M. J. Quaves, Henry Capdepon, Jr., Roger Heitzmann, Martin Ato, Hartwell Gex, Odelle Saucier, Billy Jackson, Vin-die Gilmore, Elwood Coyle, and Monroe Quaves. Contract Let For Addition To Mauffray Hardware Store

A contract has been let by Mr. Alden Mauffray, owner of Mauffray Hardware, to C. C. McDonald, Jr., for the building of an addition to his store. The addition will have two stories, with each floor having more space than is in the present building. Mr. Mauffray says that the addition is the filling of a long felt need, and that it will afford an opportunity to better display his merchandise for the benefit of his customers.

Mauffray's Hardware is one of the oldest business places in Bay St. Louis. It was founded in 1903 by Mr. Joseph O. Mauffray, father of the present owner, who at the time he entered the hardware business was the owner of Mauffray's Dry Goods Store in the adjoining building.

Alden is one of the most experienced hardware men in this section. He started working in his father's store in the afternoons after school, on holidays and during summer vacations. He learned hardware from the bottom up, and when his father decided to retire several years ago he purchased the business. Through his personal efforts and attention to business, he has expanded to such proportions that the addition on which work has already started, is a necessity. Mr. Mauffray in order to better serve his customers opened during the past year Mauffray's Hardware Annex on Railroad Avenue.

BAY HIGH TIGERS LOSE TO POPLARVILLE

The Tigers of Bay High were no match for a strong Poplarville Hornets last Thursday night and went down in defeat by a 33-0 score. The Hornets, unbeaten, untied and

unscored on in six games this year, were superior in every department. Except for the superior line play of Tiger Tackle Clyde Favre, the score would probably have been bigger.

The Hornets scored in the first period when right half Lowe scooted 47 yards for a marker. In the second quarter the visitors chalked up two more markers on running plays. The Hornets racked up two touchdowns in the last half, both being set up via the aerial route.

Poplarville accounted for 16 first downs to 7 for Bay High.

BAY TIGERS DEFEAT PASCAGOULA 53-6

Starting in the first quarter the Bay High Tigers on Sunday romped decidedly over the Pascagoula Trade School displaying an offensive that was overwhelming to the visiting team, took the air and brought out on "also ran" which really paid off and made touchdown after touchdown, thrilling the crowds with their trick plays. The whole team was at its best when they swept to the sky in a 53 to 6 victory over their opponents. Spectacular among the players were Oswald Talbert, halfback who charged the Pascagoula line for a long yardage at each try and crossed the pay off stripe several times. "Wennie" Bell who struck out with his wide end runs making four touchdowns.

ORTE THEATRE WED-THURSDAY "BERLIN EXPRESS"

Forces of obstruction at work in Germany today are shown to be the menace in RKO Radio's melodrama offering, "Berlin Express" with Merle Oberon, Robert Ryan, Charles Korvin and Paul Lukas in the stellar roles.

The Nazi underground learns that the Americans are smuggling a distinguished German statesman to an all-important meeting in Berlin. Grimly determined to prevent his efforts toward uniting Germany, the Nazi fanatics repeatedly try to kill the statesman before he can reach his destination. Their efforts, and those of the Allies to counteract them, lend an abundance of thrills to the story.

Opening in Paris, and continuing aboard the famous "Main-Seiner" train to Frankfurt, and finally on

another train to Berlin, the picture carries an unusual realism. Director Jacques Houriour and Producer Bert Granet spent two months with their principals and camera crew making exterior scenes on the actual locales of the script.

Robert Coote, Reinhold Schuzel and Roman Toporow head the supporting cast of the dramatic film, and Harold Medford wrote the screenplay. Dore Schary was in charge of production.

UNITED GAS...

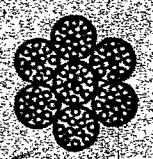

Bridge BUILDER

One United Gas bridge has a suspended section 3,200 feet long carrying a 24-inch natural gas pipeline.

Its towers stand the height of a 14-story building, and its footings reach an equal distance below the ground.

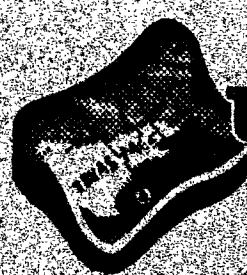

Steel cables as thick as a baseball bat stretch 4,000 feet across the river, unspliced. There are eight such cables, weighing over 200 tons.

More than 6,000 tons of concrete went into the caissons of the bridge, more than 900 tons of steel into the superstructure.

Yes, sometimes United Gas turns "bridge builder" in the process of laying pipe lines to move natural gas from wells to the homes and factories of thousands of users. Underwater lines are generally used to cross rivers or streams, but occasionally it is necessary to take the pipe line over the river to avoid damage from erosion and shifting of the river bed. United has built several overhead crossings, including one of the longest bridges of its kind in the nation, to assure uninterrupted service to its customers.

This is one of many functions of the United Gas organization, all of which have the ultimate purpose of providing a continued dependable supply of natural gas for our customers.

Farm Foresters Help Mississippi Farmer Reach Goal Of Higher Income

Farm electrification in the United States has reached 68.6 percent, the U. S. Department of Agriculture announced today.

It reached that level on June 30, 1948, after a year in which more farms received central station power than in any other year. According to the REA estimate, 4,019,476 farms were electrified by that date, 444,835 more than the estimate for the same date in 1947.

Of the newly-connected farms, 320,677 were reached by REA-financed rural power distributors, who placed into operation 119,376 miles of lines during the year, the Department said. In addition to these farms, REA borrowers added about 100,000 other rural consumers to their systems during the year.

Despite this unprecedented gain, a formidable job of rural electrification remains. USDA reported, for about 1,840,000 farms still were without electricity.

The Department reported these statistics from the annual unelectrified farm survey of the Rural Electrification Administration. The survey is made annually to provide a basis for the provision of the REA Act which requires allotting to the states in proportion to the number of unelectrified farms in each state, one-half of the loan funds made available annually by Congress. For the fiscal year ending June 30, \$400,000 in loan funds were authorized by the recent Congress; heretofore, \$200,000 will be allotted or apportioned among the various states on the basis of the survey. The funds so reserved are kept available to meet specific loan applications from the respective States during the fiscal year.

The remaining \$200,000,000 authorized and the \$93,000,000 available in loan funds from fiscal 1948 authorizations, is available without State allotment, except that no more than 10 percent of those unallotted or so-called "discretionary" funds may be lent in any one State during the year.

The progress in rural electrification since the war is indicated by the record of recent years. A year ago 61 percent of the farms were electrified, 54.3 percent in 1946, 45.7 percent in 1945, and 10.9 percent in 1935 at the start of the Federal rural electrification program. Approximately 3,275,000 farms have received central station service since 1935 and of these 63.2 percent are served by REA-financed lines.

REA's survey shows that the greatest gains in the farm electrifi-

cation during the fiscal year were made in the Southern and Middle Western States. Record loans for construction in the Great Plains area were resulting in greatly accelerated activity there as the year closed.

Ohio with 97.6 percent of its farms electrified ranked first among the States in percentage of farms electrified. To reach this position REA-financed co-ops and Ohio utilities connected about 17,000 farms during the year.

Texas, with 43,000 new connections, reported the largest number electrified in the 12-month period. North Carolina was second with 38,000; and Virginia third with 33,000. Most of the unelectrified farms are located in the Great Plains and in the Southern States, REA's survey shows.

Commenting on the progress of farm electrification, Administrator Claude R. Wickard, said:

"The progress in 1948 was most gratifying, but we cannot afford to slacken our efforts with 1,800,000 farms and perhaps as many other rural establishments still without electricity. These unserved people are as much entitled to electric power as those who already have it. But bringing electricity to them will challenge the ingenuity of all engineers and power supplies interested in this field. Many of the farms are located in sparsely settled areas, and many in areas of rugged terrain.

"The problem of converting these farms to the highline is paralleled by the growing problem of providing adequate power for those already served. Average consumption of power on the farm is increasing at a rapid rate. A substantial part of our worry in the future, therefore, must be in heavying up existing systems and otherwise improving facilities for greater capacity. Many REA-financed systems now are engaged in this work.

"The National power shortage is a serious obstacle to expansion of rural power service. Some applications for line construction now pending cannot be approved because there is no power available in the area. REA cooperative in many areas are finding it impossible to purchase from present suppliers the additional amounts of power they need as the consumption of present consumers increase. This power shortage, judging from its impact upon the rural electrification program, is growing more acute."

Statistics of the allotment of funds among the State follow.

Statistics of the allotment of funds among the state shows that compared to Ohio, with all farms except 2.4%

The closing date for issuing purchase orders on winter cover crop seed has been extended to November 15.

Farmers desiring wild winter peas, common vetch or crimson clover are urged to get in touch with the P. M. A. office as soon as possible. These seed are in Picayune. Under the Purchase order program the Government pays most of the cost of these seed.

Farmers who have purchased seed out right for cash are urged to bring or mail their sales slips showing the purchase of the seed to this office at once so as to get the Government payment at the close of the 1949 program.

Farmers in Hancock County will receive notices within the next week.

This money and substantiate their requests with facts and figures that meet REA's specifications.

H. H. Shattuck, Manager of the Coast Electric Power Association, states that of the amount made available, the coast co-op can borrow only \$179,000 due to present limitations. To change these limitations and make possible the borrowing of additional funds, a majority vote of the members is required and certain Board action is necessary to make the member vote possible.

Shattuck stated that it is planned to take such action at an early date. The Coast Electric Power Association, plans to serve every one in the three counties of Hancock, Harrison and Pearl River that wants to be served, they plan to build a headquarters building, install two-way radio equipment and acquire additional office equipment—all this to provide better service to its members. Additional funds will be required if this is needed and desired progress is accomplished.

or two about annual elections of P. M. A. Committeemen, to serve in 1949.

Each of the county's three farming committees will elect a community committee as well as a delegate to the County Convention where a three-man County Committee will be elected. The date of the election hours and places, for holding the elections are now being determined.

Approximately 150 farmers are eligible to vote in the elections this year. Eligible farmers are those who are participating in the 1948 program or have indicated that they intend to participate in the 1949 program by setting a prior approval for cover crops or permanent pastures put out this fall. This includes owners, operators, tenants and share croppers on farms that are participating in the program. It does not include wage hands and hired managers.

All eligible farmers are urged to watch for the announcement of the date, hours and polling places of this election and to vote.

any other car in its field!

Your No. 1 Choice for
RIDING SMOOTHNESS

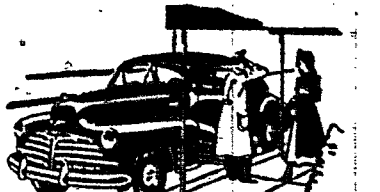

Men and women agree that Chevrolet gives a much smoother, steadier ride than other cars in its field. The reason is that Chevrolet alone has the original Unitized Kne-Action Ride, backed by more than 14 years' experience in building Kne-Action units. This feature is found elsewhere only in higher-priced cars.

Your No. 1 Choice for
PERFORMANCE
with ECONOMY

You'll enjoy much finer performance with economy in Chevrolet. Its world's champion Valve-in-Head engine holds all records for miles served, owners satisfied, and years tested and proved. And Valve-in-Head engine design, like so many other Big-Car features, is found only in Chevrolet and more costly cars.

Your No. 1 Choice for
ALL-ROUND SAFETY

You and your family will ride safely, thanks to Fisher's Unisteel Body Construction—safety bodies that are better by far. Chevrolet's Bodies by Fisher reveal this finer quality in every detail, including the hardware, upholstery and all appointments. Naturally, these bodies are exclusive to Chevrolet and higher-priced cars.
